

**Greiner**  
Engineering Products

Welcome to  
*Greiner Engineering Products*  
***JONEJA GROUP***

## ABOUT US IN BRIEF

“Greiner” was established in the year 1980 and till date continues to have a team of highly qualified and experienced staff & workers. The expertise is evident from our operations and confidence of our customer since long

We are privileged to be one-stop-solution provider for wide range of Precision Components and Assemblies, Cold forged parts and Fasteners to many valued customers across varied industry segments – Automotive, Aerospace other Engineering Industries for highly critical application parts

Since 2021, merge with Joneja Steels Group – a privately owned and professionally managed progressive group. Joneja Bright Steels (JBSPL) is a supplier Bright Bars, Steel Wires & Profiles – approved with major global & local OEMs. Latest greenfield project in 2021 of Hydraulic Cylinders has been set-up for cylinders to OEMs in the field of Construction & Mining Equipment and other industrial Equipment and off Highway Vehicle manufacturers

We are strategically located in Faridabad (Delhi NCR), a well-development industrial town with excellent connectivity by Air & Road and well laid-out infrastructure

## PLANT

**Plant Location:** Plot 74, Sector 27C, Faridabad  
Haryana 121003

~ 25 kms from Delhi International Airport  
~ 7 kms from Inland Container Depot, Delhi

**Plant Size:**

Land Area – 23,000<sup>sqft</sup>  
Covered Area – 20,500<sup>sqft</sup>

## MACHINES

- Automatic Index Machines = 24 Nos - machining till 50 Dia
- Thread Rolling Machines = 2 Nos
- CNC Machines = 28 Nos - Dia 200 mm and length 400 mm (LMW, ACE Micromatic, Jyoti and GSK Controls)
- VMC Machines – 2 Nos. – BFW - 600 x 800 bed size with rotary
- Lathe Machines – 2 Nos. - 8ft.
- Assembly Machines
- Band-saw Machines – 3 Nos. cut upto 300 mm
- G.D. Weiler Machines – 8 Nos.
- Power Press – 2 MT.

- Centre-facing Machines – 1 Nos.
- Centre less grinder – 5 Nos.
- Cylindrical Grinder – 1 No.
- SPM Milling – 2 Nos.
- Slotting M/cs. – 3 Nos.
- Knurling M/cs – 1 No.
- Surface Grinder – 3 No. --- 150 x 300 mm
- Lazer Marking – 1 No.
- Polygon Milling – 1 No.
- Power Press – 2 MT.

## OUR MANUFACTURING RANGE

Turned Components & Assemblies

Cold Forged Parts

Fasteners

## TURND COMPONENTS

**Dowel Pins**  
For accurate alignments our  
dowel pins are trusted

**Precision Turned Components**  
We make variety of turned components maintaining  
critical profiles as per customer specifications

**Retainer Nut**  
These are used in extremely critical application  
areas of fastening

**Spacers**  
Our Spacers are well trusted to  
perform under extreme conditions

## VALUE ADDED APPLICATIONS

### **Coupling Assemblies**

**These are multiple parts produced & Procured and supplied as a critical assembly giving the Value Addition**

## COLD FORGED PARTS

### Dowel Shafts

These are used for structural alignment

### Pistons

### Equalizer Shafts

These very reliable components used in Heavy Trucks & Trailer applications

### Balancer Shafts

These very reliable components used in Heavy Trucks & Trailer applications

## STAINLESS STEEL PARTS

### Hydraulic & Pneumatic Parts

Our Parts are used across the globe for many Industrial applications

### Stainless Steel Fitting

Our Parts are used for any applications with High Temperature and Corrosive operating conditions

### Stainless Steel Threaded Bars

Our Parts are used for any applications with Corrosive operating conditions at accurate straightness

## OTHERS PARTS

### Sheet Metal Parts

These are made using the best quality raw materials in various critical shapes

### Equilizer Radius Bush

We offer parts in different sizes and specifications best suited to customer requirements

### Spherical Bearing Camshaft Bush

It has inner & outer rings with spherical sliding surface. Bush takes the radial & bi-directional load at the same time.

### Aluminum Piston

These are used in the ICE engines of the Passenger Cars. These can be customized to suit different customers

### Aluminum Cup Washers

These are used in Cars & Tractors. These can be customized to suit different customers

**Wheel Nuts**

Critical wheel nuts are used as OEM for many truck and trailer applications

**FASTENERS**

**Ghiera Nuts**

Used for high Speed & High Vibration critical application

**Special Nut**

**Wheel Bolts & Nuts**

**Slave Nut**

**Nozzle Nuts**

For Hydraulic Hoses

**Slave Bolt**

**Nut Assembly**

## Components Better Known via OEM Part Numbers

### Part Numbers

893 800 801, 802, 803, 804,  
805, 806, 807, 809, 816 &  
082

### Part Name

Coupling Swivel

893 800 808, 809,  
812, 821, 817, 818, 819,  
813, 820, 814,

Nipple

893 129 467 468

Connector

## Components Better Known via OEM Part Numbers

### Part Numbers

893 920 311, 312, 313, 314,  
369,315,316,317,318,319,320,  
364,370,365, 366

893 770 017,145, 151, 016,  
149,146,150,147,148,367

893 920 311, 312,313

893 771 236, 235, 234,233

### Part Name

Quick Couplings

Swivel BulkHead

Plug-In Piece

Plug-In Connectors

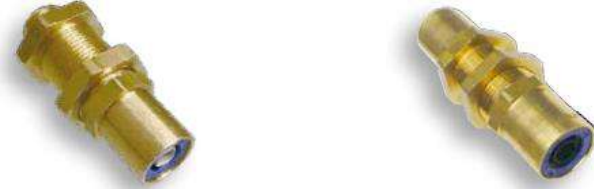

Components Better Known via OEM Part Numbers

893 831 216, 217 269,261

Part Name

Fitting Module

893 800 028, 034, 043,  
037,038,046,991,039,041,046,  
051

Screw-In Fittings

893 831  
274,279,264,299,215,269,  
216,278,296,265,288

Fitting Module

893 226 689, 690, 921, 682,683  
235,234,233

Thrust Screw

893 920 338, 351

Plug-In Nipple

## Components Better Known via OEM Part Numbers

### Part Numbers

952 200 221, 222,  
001,002,014,015

### Part Name

Coupling Head

Similarly we manufacture many similar parts :

- BulkHead
- Double Connectors
- BulkHead/Push-In Connectors
- Screw Head Couplings
- Elbos
- T Connectors
- Hose Fittings
- Nozzles
- Etc. ...

**Greiner**  
Engineering Products

Clutch Housings

Steering Columns & their  
Assemblies

Gear Shifter Shafts and Levers

Steering Spindles

Spring Pins

Hinges  
(ARAI Approved)

**Greiner**  
Engineering Products

Clutch and Accelerator Levers

Spring Hanger Brackets

Fabricated and Sheet Metal Parts

Crown Wheels

Engine Mounting Arms & Steering Arms

**Greiner**  
Engineering Products

Steering and Tie Rod Arms

Gear Shifting Levers & Lock Nuts

Turning tubes

Brake Drums

Front and Dummy Hubs

Clutch And Brake Pedal Assemblies

**Greiner**  
Engineering Products

Gear Shifting Shaft & Bkts

Shifter Shafts & Cross Shaft

Clutch Pedals and Levers

Gear Shifting Levers

Clutch Yokes and Forks

## BRAKE LINING

We offer complete one-stop solutions with high level of expertise in critical processes:

- Customer drawings and parameter are converted into our stage drawings by our in-house Engineers
- Battery of precision machines like CNC & VMC Machines with Sliding Head
- Cylindrical & Centreless grinding, milling, drilling, tapping, thread milling & tapping machines
- We make parts out of all Alloy steels –medium & high carbon, Stainless Steel, Brass, Copper, etc.

We have in-house inspection facilities controlling critical dimensions and parameters:

- All processes are supported by stage-level customized fixtures and gauges
- Digital Air Pressure gauges
- Hardness tester
- Profile Projector
- At Joneja Bright Steels – our NABL accredited lab is fully equipped with Spectrometer, CDMM, UTS, Salt-Spray chambers, etc Automotive Aerospace Engineering Customer
