

We Understand Quality

Welcome to
Greiner Engineering Products
JONEJA STEELS GROUP

PRECISION AUTO COMPONENT MANUFACTURING UNIT

Components we manufacture

Turned Components & Assemblies

Cold Forged Parts

Fasteners

Turned Components & Assemblies

Dowel Pins
For accurate alignments
our dowel pins are
trusted

Precision Turned Components
We make variety of turned components
maintaining critical profiles as per
customer specifications

Retainer Nut
These are used in extremely critical
application areas of fastening

Spacers
Our Spacers are well
trusted to perform under
extreme conditions

Coupling Assemblies

These are multiple parts produced & Procured and supplied as a critical assembly giving the Value Addition

Dowel Shafts
These are used for structural alignment

Pistons

Equalizer Shafts
These very reliable components used in Heavy Trucks & Trailer applications

Balancer Shafts
These very reliable components used in Heavy Trucks & Trailer applications

We Understand Quality

Stainless Steel Parts

Hydraulic & Pneumatic Parts

Our Parts are used across the globe for many Industrial applications

Stainless Steel Fitting

Our Parts are used for any applications with High Temperature and Corrosive operating conditions

Stainless Steel Threaded Bars

Our Parts are used for any applications with Corrosive operating conditions at accurate straightness

Other Material Parts

Equilizer Radius Bush

We offer parts in different sizes and specifications best suited to customer requirements

Spherical Bearing Camshaft Bush

It has inner & outer rings with spherical sliding surface. Bush takes the radial & bi-directional load at the same time.

Aluminum Piston

These are used in the ICE engines of the Passenger Cars. These can be customized to suit different customers

Aluminum Cup Washers

These are used in Cars & Tractors. These can be customized to suit different customers

Sheet Metal Parts

These are made using the best quality raw materials in various critical shapes

Wheel Nuts
Critical wheel nuts are used as OEM for many truck and trailer applications

Ghiera Nuts
Used for high Speed & High Vibration critical application

Special Nut

Slave Nut

Nozzle Nuts
For Hydraulic Hoses

Wheel Bolts & Nuts

Slave Bolt

Nut Assembly

Components Better Known via OEM Part Numbers

Part Numbers

893 800 801, 802,
803, 804, 805, 806,
807, 809, 816 & 082

Part Name

Coupling Swivel

893 800 808, 809,
812, 821, 817, 818,
819, 813, 820, 814,

Nipple

893 129 467 4

Connector

Part Numbers

Part Name

893 920 311, 312,
313,314,369,315,
316,317,318,319,
320,364,370,365, 366

Quick Couplings

893 770 017,145,
151,016,149,146,
150,147,148,367

Swiv

893 771 236 4
893 771 234 4
893 771 233 4
893 771 235 4

893 920 311, 312,313

Plug-In Piece

893 771 236, 235, 234,233

Plug-In Connectors

Part Numbers

Part Name

893 831 216, 217 269,261

Fitting Module

893 800 028, 034, 043,
037,038,046,991,039,041
,046,051

Screw-In Fittings

893 831
274,279,264,299,215,269,
216,278,296,265,288

Fitting Module

893 226 689, 690, 921,
682,683 235,234,233

Thrust Screw

893 920 338, 351

Plug-In Nipple

Part Numbers

952 200 221, 222,
001,002,014,015

Part Name

Coupling Head

Similarly we manufacture many similar parts :

- BulkHead
- Double Connectors
- BulkHead/Push-In Connectors
- Screw Head Couplings
- Elbos
- T Connectors
- Hose Fittings
- Nozzles
- Etc. ...

Clutch Housings

Steering Columns & their Assemblies

Gear Shifter Shafts and Levers

Steering Spindles

Spring Pins

Hinges
(ARAI Approved)

We Understand Quality

Clutch and Accelerator
Levers

Spring Hanger
Brackets

Fabricated and Sheet
Metal Parts

Crown Wheels

Engine Mounting Arms & Steering
Arms

Steering and Tie Rod Arms

Gear Shifting Levers & Lock Nuts

Turning tubes

Brake Drums

Front and Dummy Hubs

Clutch And Brake Pedal Assemblies

Gear Shifting Shaft
& Bkts

Shifter Shafts & Cross
Shaft

Clutch Pedals and
Levers

Gear Shifting Levers

Clutch Yokes and Forks

We Understand Quality

Critical Processes

We offer complete one-stop solutions with high level of expertise in critical processes:

- Customer drawings and parameter are converted into our stage drawings by our in-house Engineers
- Battery of precision machines like CNC & VMC Machines with Sliding Head
- Cylindrical & Centerless grinding, milling, drilling, tapping, thread milling & tapping machines
- We make parts out of all Alloy steels –medium & high carbon, Stainless Steel, Brass, Copper, etc

We have in-house inspection facilities controlling critical dimensions and parameters:

- All processes are supported by stage-level customized fixtures and gauges
- Digital Air Pressure gauges
- Hardness tester
- Profile Projector
- At Joneja Bright Steels – our NABL accredited lab is fully equipped with Spectrometer, CDMM, UTS, Salt-Spray chambers, etc
